^{*} IFSP numbers listed and grouped by referral date, not the date the IFSP was written.

^{** 12-}month average is the average for the last 12 months in which it was possible for a referral to go over 45 days (for example, if the report is for September 7, then no August referrals would have had a chance to go over 45 days yet, so the 12-month average will take into account the last 12 months ending in July).

^{*} All Referrals counted are after 4/1/02 implementation for Phase 1 SPOEs and after 3/1/03 implementation for Phase 2 SPOEs.

^{**} Referrals entered into the system without a date of birth have been omitted from each SPOE's count but are included in grand totals.

^{***} In this table, "Last Six Months" represents the last six months leading to the Report Date. Other tables marked "Last Six Full Months" refer to the last six months ending with the end of the last full month.
